Product Description

Bobcat AE30S Stand-On Aerator

Aeration season doesn't last forever, that's why you need a swift, efficient machine that saves you time while increasing your productivity. The Bobcat AE30S does just that, capable of covering two-and-a-quarter acres per hour at ground speeds up to 7 mph. Its innovative features and controls also give you the power and speed to take on the biggest jobs. It's packed with features including an anti-vibration operator platform that can be flipped up for walk-behind applications, patented depths that create a hard limit for tine penetration, a patented cooling system that provides optimal engine temperature, and a patented chain tensioner system that automatically keeps the chains properly tightened.

Swift and efficient, the Bobcat® AE30S aerator is capable of covering two-and-a-quarter acres per hour at ground speeds up to 7 mph.

- 30 in. working width
 - 48 hardened alloy steel coring tines
 - Stand-on anti-vibration operator platform
 - All operating controls are located at the handlebar for convenient and easy operation
 - Patented depth stops ensure consistent and accurate results
-
