Product Description

Bobcat RP49.20D Reversible Plate Compactor

The Bobcat® RP49.20D reversible plate compactor features the powerful compaction forces and hydrostatic steering you need for great results on jobsites big and small.

- Consistent compaction results
 - Durable, twin-shaft vibratory system
 - High productivity in a compact size
 - Equipped with a durable 8.8 hp-diesel engine, the Bobcat® RP49.20D is our most powerful reversible plate compactor, delivering impressive compaction forces.
 - The well-balanced base plate distributes compaction power evenly, for efficient operation and consistent results on a variety of materials and grades.
 - Power up the reversible plate compactor's convenience with the optional electric start, toolless transport wheels and an hour meter.
 - With optimum machine balance, continuous movement compaction and stationary work are equally productive, efficient and easy on the operator.
 - Conveniently placed tie-down points and a central hook are integrated into the reversible plate compactor's frame for easy lifting and transport.
 - The reversible plate compactor's base is designed to shed dirt and reduce material buildup for reduced maintenance.
-
