Product Description

Bobcat T450 Compact Track Loader

Its radius lift path provides maximum reach when dumping over walls, backfilling, and unloading flatbed trailers.

The 55-horsepower engine meets Tier 4 emissions standards without the need for a diesel particulate filter, reducing downtime long-term maintenance costs.

Attachment changes are easy with the Bob-Tach mounting system.

The nimble T450 compact track loader brings leading maneuverability and power to jobsites big and small. You'll quickly negotiate small access points and confined jobsites where larger machines are less efficient and productive.

- Low ground pressure and minimal disturbance
 - Available with standard or selectable joystick controls
 - Powered by a 55-horsepower Bobcat® engine
 - Ultra-efficient fuel system
-
