Product Description

Nuhn Industries Electric Pump

TUNGSTEN CARBIDE SEAL

The Nuhn Electric Pump uses a tungsten carbide mechanical seal to provide the ultimate protection in sand.

MULTI OUTLET DESIGN

The patented Header Series pump design is an extremely efficient design allowing for higher volumes and pressures while using less horsepower.

OPTIONAL HARD SURFACING

As an option, the header pump can be hard surfaced to 550BR. Once it is this hard it cannot be machined.
